MD. IBRAHIM KHALIL

FLUTTER APP DEVELOPER

Chandpur, Bangladesh · 01889254301 · ibrahim258159@gmail.com · GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Flutter Developer with 2 years of professional experience building and shipping 10+ production mobile applications on the Play Store and App Store using Dart and Flutter. Skilled in REST API integration, Firebase, and clean architecture patterns (MVC, MVVM, Feature-First). Focused on performance optimization, scalable state management, and delivering polished, production-ready user experiences.

TECHNICAL SKILLS

Languages & Core: Dart, Object-Oriented Programming (OOP), Java

State Management & Architecture: GetX, Provider, RxDart, MVC, MVVM, Feature-First, Clean Architecture

Backend & Data: Firebase (Auth, Firestore, Cloud Messaging), Hive, Sqflite

API & Networking: REST APIs, Dio, HTTP, RxDart, WebSocket, JSON Parsing

CI/CD & Deployment: GitHub Actions (CI/CD pipelines), Firebase App Distribution, Google Play Internal Testing, TestFlight, App Store Connect API

Real-Time & Connectivity: Pusher, WebSocket, Deep Linking (go_router, app_links, Branch.io)

Monetization & Notifications: SSLCommerz, RevenueCat, In-App Purchase, AdMob, Local & Push Notifications (Firebase, OneSignal)

Maps & Location: Google Maps Integration

Tools & Version Control: Android Studio, VS Code, Xcode, Postman, Figma, Adobe XD, Git, GitHub

Additional: Performance optimization, UI implementation, AI Tool (GitHub Copilot, Claude, ChatGPT), debugging

PROFESSIONAL EXPERIENCE

Flutter Developer — Softvence Agency *Dec 2024 – Present*

- Built and maintained cross-platform mobile applications using Flutter, contributing to 10+ apps in active production.
- Integrated REST APIs and handled complex, real-time data flows using Dio and RxDart.
- Implemented scalable state management using GetX and Provider across multiple app modules.
- Optimized animations and rendering for low-memory (4GB RAM) devices, cutting latency by 15% across 2 Flutter apps.
- Collaborated with backend and design teams to ship production-ready features on release cycles.

Flutter Developer Intern — Universe IT *Jul 2024 – Dec 2024*

- Built mobile application UI components from Figma designs using Flutter and Firebase.
- Reduced UI-related bug reports by 20% through close attention to design fidelity and QA.
- Gained hands-on experience across the full app development life cycle, from design hand off to release.

PROJECTS

Nutrimir *(AI Meal Analysis App — Play Store & App Store)*

- Built the AI-powered meal image analysis flow, delivering calorie, macro, and ingredient insights to support users' dietary decisions.
- Integrated Stripe-based web payments and an in-app purchase system for premium features.

Tech: *Flutter, Firebase, REST APIs, AI Integration*

Sell Your Strips *(Diabetic Accessories Marketplace — Play Store & App Store)*

- Built a marketplace platform for diabetic medical accessories, including product listings, secure Stripe transactions, and push notifications.
- Designed a scalable, real-time data architecture to support live product and order updates.

Tech: *Flutter, Firebase, REST APIs, Stripe*

MindGuardian *(AI-Powered Mental Wellness App — Play Store & App Store)*

- Built AI-driven daily "mind scan" features helping users track emotions, stress levels, and focus.
- Implemented Focus Mode with calming sounds and guided restoration exercises, plus in-app purchase monetization.

Tech: *Flutter, Firebase, REST APIs, In-App Purchase*

Rovascore *(Live Sports Scores & Stats — Play Store & App Store)*

- Built real-time sports score tracking with detailed match statistics and player performance analytics.
- Integrated Google AdMob for monetization across live-traffic screens.

Tech: *Flutter, Firebase, REST APIs, Google AdMob*

WingSync *(Flight Journey Companion App — Play Store & App Store)*

- Built a flight journey companion app for pilots, crew members, frequent flyers, and families to stay connected to their travel.
- Implemented real-time flight tracking, smart ticket and boarding pass scanning, and flight calendar/schedule management with local time and UTC support.
- Built in-app messaging and role-based connections between Crew, Flyers, and Partners, plus an in-app purchase system.

Tech: *Flutter, Firebase, REST APIs*

EDUCATION

BSc in Computer Science & Engineering (CSE)
Presidency University, Dhaka — Expected Graduation: 2028

Diploma in Computer Technology
Chandpur Polytechnic Institute, Chandpur — 2020–2024 — CGPA: 3.69 / 4.00

Secondary School Certificate (SSC)
Bagadi Gani High School, Chandpur — 2020 — GPA: 4.78 / 5.00

CERTIFICATIONS

- Flutter App Development Internship — Universe IT (Completed: Dec 2024)
